5 LEKA ROOFS FITTED

Over recent months trade fabricator Modplan Ltd has reported a rise in sales of their LEKA roof systems as more installers capitalise on the benefits that feature-rich orangery roofs and solid-roof conservatory solutions can add to their business. This trend is showing little signs of decline as witnessed during the run up to Christmas when 5 LEKA roofs were installed on 5 conservatories over 5 consecutive days by one company! Heidi Sachs, Managing Director of Modplan explains: "When we launched the LEKA roof products we knew they were a game changer in conservatory roof design."

DOOR INSTALLATION GIVES KERB APPEAL

The highly-acclaimed Modo composite door range from Apeer has been used in a home renovation project in Broughshane, Co. Antrim. Apeer's Ryan Burnett was looking to replace the old single glazed door on his property with not only a highly secure and efficient replacement, but also a door that could be completely personalised to suit the external look of the property.
